**Treatment
Expectation**
TRR 289

ECR summer school

9 – 10 May 2023

Location: Intercity Hotel Duisburg

We cordially invite you to our Early Career Researcher (ECR) summer school, organized by the CRC/TRR 289 “Treatment Expectation” and preceding and connected to SIPS 2023 in Duisburg, Germany. Next to theoretical lectures, the school will feature active „hands-on” workshops of meta-skills and networking

opportunities. In addition, a final discussion session will provide a framework to share issues and challenges in one’s own research, both with peers and more experienced scientists.
